SMART TOOLS.

Smart**PDF**

The WyldLynx SmartPDF add-in allows users to convert Content Manager documents to PDF with a click of a button.

Users can choose to create a rendition, revision or convert multiple documents to PDF, and even attach them to an email.

WyldLynx

SMART TOOLS.

Features and Functionality

✓ Easily create PDFs in Content Manager

✓ Create PDF Revisions and renditions

✓ Convert documents and images to multiple PDF/A Standard formats

✓ Create PDF's directly from Content Manager for Word, Excel, PowerPoint, Project, Visio and images

✓ Combine multiple documents and images into a single PDF

" SmartPDF is my favourite tool!! I can create PDFs from within the system with the click of the button. Plus I can even merge multiple documents in the system into one PDF. This saves us countless hours each week when collating things like board papers. "

User Feedback

Using SmartPDF

Combining multiple documents into a single PDF from within Content Manager is as simple as selecting the files and clicking a button. It's that easy!

You can even specify the order the selected files appear in the final PDF, so everything turns out as you need it.

Requirements:
- Microsoft Windows 7, 8 or 10
- Microsoft .Net Framework 4.5+
- Content Manager 8.3+
